Overview

Villa Simona Oasis is a lovely five bedroom villa in the heart of Canggu, tucked between two streams and surrounded by lush jungle and terraced rice fields. With almost 5,000 sqm of tropical gardens, it is the perfect Balinese retreat for families or groups of friends alike. The area's famous Echo Beach is an easy 15 minute walk way where guests will find beach bars and restaurants as well as excellent surf breaks for those keen to try surfing.

Pathways weave through the grounds, connecting the bedroom pavilions and leading to hidden corners where nature and design unite. Highlights include two magnificent stone-carved baths elevated above the landscape, inviting guests to soak while listening to the soft murmur of bamboo and birdsong. Each bedroom has a different design and is set in it's own pavilion. All five rooms have ensuite bathrooms and bed configurations vary from kings, queens and twin beds.

The interiors of the villa are effortlessly cool and modern, complemented by natural textures and a tranquil palette. At the villa’s heart lies a sparkling 13-metre pool, surrounded by timber decking and shaded by a wooden bale, the perfect place for lazy brunches or afternoon cocktails. Swinging bamboo chairs add a playful touch to this chic outdoor area.

Coconut palms, mango trees, and papaya groves surround the villa, while across the riverbank, a small temple

offers a captivating glimpse into the island's spiritual life. A dedicated team of staff, including attentive attendants and 24-hour security, ensure every detail is taken care of, from private dining prepared in the villa's two kitchens to seamless service throughout your stay. This villa does not include the services of a chef but can be arranged for an additional surcharge.
