Overview

Casa Lorna sits high on the northern hillside above Port d'Andratx, Mallorca's most exclusive marina, with sweeping views across the bay. It's a contemporary luxury villa with a heated pool, hot tub and underfloor heating throughout. Its south-facing position catches the sun all year round, which makes it an exceptional choice for summer holidays and winter stays alike.

Set in an exclusive residential area, Casa Lorna offers peace, privacy and uninterrupted sea views, yet it's just minutes from the lively waterfront. Walk the coastal paths around Cala d'Egos, or head to the sandy beaches of Camp de Mar and Sant Elm. Palma and Palma Airport are both around 35 minutes away by car.

Large glass doors and picture windows fill the villa with natural light and frame the dramatic coastal views. There are two elegant lounges, a striking double-sided fireplace and spacious open-plan living areas. Underfloor heating throughout keeps the villa warm and comfortable in the cooler months.

Casa Lorna sleeps up to eight guests in five spacious bedrooms. The fifth bedroom is in a separate guest house, ideal for guests who want extra independence.

Every bedroom has its own bathroom, three of them en-suite
Wood flooring throughout

The large south-facing swimming pool is surrounded by wraparound terraces for sunbathing and relaxing, and it can be heated for comfortable swimming all year. A six-person hot tub overlooks the bay, perfect for stargazing, and another terrace is made for sunset cocktails. A large lawned garden gives children plenty of space to play.

There's plenty to keep everyone entertained, including a Sonos sound system, PlayStation 4 and table tennis. The villa suits families as well as couples and groups looking to relax.

The fully equipped kitchen has Miele appliances, a Nespresso machine, a wine cooler and a filtered water system. Outside, a high-end gas barbecue makes alfresco dining easy. For nights out, the marina promenade is lined with restaurants, from fine dining to relaxed waterfront spots.
