Overview

Villa Hibiscus Miskawaan is a four bedroom property and one of eight luxury homes that make up the Miskawaan Villa Estate. The estate is located at Maenam beach on the north coast of Koh Samui.

Villa Hibiscus offers 473 square metres of indoor living space and is designed around a central tropical garden area. The four-bedroom villa is approached via imposing, almost medieval gates that open on to a stone courtyard leading to a landscaped garden area. To the left is an L-shaped swimming pool flanked by the central pavilion, which contains a fully fitted kitchen along with living and dining areas that overlook the pool.

On the opposite side of the property are two pavilions next to each other, one with two bedrooms and the other with a third bedroom and the master suite, the latter commanding stunning ocean views. All bedrooms have en-suite bathrooms. Both pool and ocean views can be enjoyed from the outdoor sala (gazebo).
