

# Casa Kolmina

---

## Overview

Casa Kolmina is a lovely three bedroom villa set on a small estate that overlooks sandy Praia Grande beach and can comfortably accommodate up to six guests. This charming villa offers wonderful Atlantic Ocean views from the large, furnished terrace. A great place to watch a sunset with a cocktail or dinner from the BBQ.

Casa Kolmina was formally a beekeeper's cottage but has been refurbished to a modern one level beach villa. The property is well equipped and has beach-chic interiors and neutral colours throughout.

There is one double bedroom and two twin bedrooms. All bedrooms are bright and airy and each has ensuite bathroom. The double bedroom has a large ensuite with step-in shower. One twin bedroom also has a large step-in shower and the other twin bedrom has ensuite shower room.

The living room is open plan with a dining table and kitchen. This area leads out onto the terrace via large, glass doors. The living room has a lovely fireplace for the cooler months. The villa also has air conditioning. The kitchen is well equipped with all you need for a self catering holiday. You have a dishwasher, washing machine, oven, filter coffee machine, toaster, blender and much more.

Outside Casa Kolmina, the garden leads down to a private swimming pool with roman steps and patio area. Just a little further through the garden leads to a gate, through which is the beach.

Please note - There are some unprotected drops from various terraces and around the swimming pool - young children need to be supervised at all times.
