Overview

Located in one of the most privileged parts of [Mykonos](#), with views towards the sunset and overlooking Delos Island, this villa will enchant any visitor with its setting, its summery atmosphere and its artistic design. The 400 sqm residence, spreading over 2000 sqm of land, has been built on a bare rock that serves as a unique natural decorative element and offers endless views to the blue Cycladic horizon.

The residence projects a very outdoorsy atmosphere, featuring a pergola-covered lounge and dining area, which is totally shielded from the occasional breezes, a bbq area, a lovely garden with blossomed bougainvillea and various other sitting and dining areas. The 100 sqm private infinity pool is ideally positioned underneath the natural rock, using it as its amphitheater, and right in front of the endless sea views and the sunset.

Indoors, the villa reveals the owner's exquisite taste and passion for details. Combining a high-end retro style with a modern mixture of antiques and rustic decorations, an overall sense of warmth and charm has been achieved. The architecture lines are typical Cycladic, with white-washed walls blending harmoniously with the very pleasant décor.

The residence features one main villa and a guest house, comfortably accommodating 11 guests plus 2 staff.
