

Onyx

Villa Onyx is a truly stunning, contemporary beachfront villa located on a tranquil beach on the west coast. It is designed in a modern, angular style and spans two stories. A central design feature is the full-length floor-to-ceiling windows to maximise views and open fully to access the pool area.

Overview

Villa Onyx is a truly stunning, contemporary beachfront villa located on a tranquil beach on the west coast. It is designed in a modern, angular style and spans two stories. A central design feature is the full-length floor-to-ceiling windows to maximise views and open fully to access the pool area.

The contemporary design matches its name with black and deep greys tempered by white walls and floors, bold geometric décor and striking black and white portraits on the walls. A massive skylight above the foyer lets in natural light and leads you upstairs to the beautiful bedrooms and an open-air workspace.

The master bedroom at Villa Onyx boasts fantastic views of the coastline, pool and poolside entertainment pavilion. The room is spacious enough to accommodate a furnished space for morning coffee. A flat-screen TV is mounted and steps away, a sleek white bathtub is carefully positioned next to the full-length windows. Why not watch a Barbados sunset while enjoying a leisurely soak. The master bathroom also comprises a separate shower, and ample closet space.

Next to the master is an expansive second suite outfitted with a king-sized bed. This room is also decorated in a tasteful style and looks onto gorgeous sea views. There are two additional bedrooms on the first floor with en-suite bathrooms. They echo the same modern theme with black ceiling fans, white floors and bold accent tiling in the showers.

On the ground floor, there is a powder room and another full bedroom. The sitting area/TV room is quite large and also takes advantage of the sea views. There is additional seating in the main living area alongside a dining area that can comfortably host ten persons. There's even more seating at the bar in the kitchen for an intimate family breakfast. The kitchen is cleverly designed with black panels that seamlessly hide appliances and accentuates the area beautifully.

A few steps from the living space takes you outside to a stunning pool, where most of your time is likely to be spent. There is a shallow end of the swimming pool with a table to enjoy a drink whilst cooling off. Directly ahead is a modern entertainment pavilion with a TV, wine chiller and plenty of seating, the perfect al fresco chill out lounge complete with ceiling fans to keep you cool.

The property has beach access to a lovely white sand beach.
