Overview

Villa Krina offers 550sqm of indoor living space and features five bedrooms. The home design has been approached with historical research, resulting in a new-classic style. Wood-beamed ceilings lend a rustic feel to the interiors. Elements of classic Italian residential architecture, such as the original stone walls, have been combined with contemporary touches, modern furnishing, and stucco walls. Aesthetically, the house recalls traditional typologies and traditional materials, including cotto, cedar and locally sourced stone. Stylish and very comfortable, this retreat blended traditional and modern architecture, with an elegant aura and a welcoming vibe.
