

Villa La Perla

Villa La Perla is a stunning six bedroom villa that oozes style. The villa has been lovingly created, crafted and furnished by one of Marbella's premium property designers.

Overview

Villa La Perla is a stunning six bedroom villa that oozes style. The villa has been lovingly created, crafted and furnished by one of Marbella's premium property designers. The impressively spacious entrance hall sets the tone, with light reflecting off the shiny marble flooring, the staircase standing ready to guide you to more splendour, and the views of the pool and gardens truly breath-taking.

Each of the bedrooms has its own ensuite bathing facilities – there is also a family-size bathroom in the communal area of the villa. The beds feature the most comfortable mattresses, their pillows puffed up and their linen offering sumptuous comfort to guide you into dreamland. And when you wake, throw open the curtains, take delight in your private balcony and enjoy the spectacular views.

The elegant first floor salon area offers an expansive, attractive and luxury-rich space for relaxing and socialising. You can kick off your footwear and sit back on huge sofas or chairs to read or watch television. The views are spectacular and can be enjoyed from floor to ceiling windows. There is also a truly majestic dining room with a huge table for ten set within grandiose surroundings that will add extra class to any meal or occasion.

The kitchen is modern and fully equipped. Glossy units and smooth worktops lend a deluxe look and feel to this spacious area. A full range of modern, integrated appliances await, allowing the budding chefs in your party to

flex their culinary muscles, on those days you choose not to dine out.

The outside of Villa La Perla is equally as impressive as the inside. You won't be able to resist an early morning dip in the saltwater swimming pool. If you prefer staying dry, there's a tropical garden with glorious palm trees, and spaces where you can seek shade or worship the sun. There is a seating area on the covered patio and you can relax and listen to music on the sound system.
