

C'est La Vie

Located on the peninsula of Trouya Pointe, St Lucia, C'est la Vie has been designed in traditional Caribbean style with some Balinese influence and offers a free flowing layout allowing comfort and privacy amidst carefully landscaped tropical gardens.

Overview

Located on the peninsula of Trouya Pointe, St Lucia, C'est la Vie has been designed in traditional Caribbean style with some Balinese influence and offers a free flowing layout allowing comfort and privacy amidst carefully landscaped tropical gardens.

Integral to C'est la Vie's concept is tranquility and serenity assisted by nature, the grounds are abundant with fruit and often the only sound is birdsong or the lapping of waves on the nearby shore.

A short pathway leads from the villa to a tranquil, secluded cove from which snorkelers may search for reef fish or lobster and strong swimmers may circumnavigate the peninsula and find themselves in another quiet cove with a beautiful sandy beach.

The five bedrooms are spaced amongst a 3 bedroom villa, a 1 bedroom cottage and a 1 bedroom apartment. All bedrooms exude an authentic Caribbean ambience with natural breezes combining with ceiling fans to comfort and nurture you whilst air conditioning is available if required.

The rooms are spacious with an abundance of closet space and are equipped with a smart TV. A mini cell phone provides direct access to the butler and the concierge whether the Guest is at home or away from C'est la Vie and cell phones with international access can be provided if required.

Everything has been designed with you in mind, including wheelchair accessibility to the swimming pool and most of the property.

C'est la Vie will accommodate ten guests in total privacy complemented by exceptional service and comfort. If necessary, an additional two Guests may share the cottage.
