

Casa La Vida

Casa La Vida is a spectacular waterfront property made up of two beautifully appointed villas. There are just ten steps down to your own private beach where you can spend the day relaxing by the water. For those wanting to explore further afield there is also a yacht anchoring.

Overview

Casa La Vida is a spectacular waterfront property made up of two beautifully appointed villas. There are just ten steps down to your own private beach where you can spend the day relaxing by the water. For those wanting to explore further afield there is also a yacht anchoring.

The first four bedroom villa has a spacious living room with a tastefully designed fire place and incredible views out over the Ionian Sea. A light, airy dining room and a modern fully equipped kitchen complete the artfully designed living areas. Large sliding windows that can be fully opened and disappear into the wall extend the lounge out to the terrace. The large terrace connects two of the bedrooms and another bedroom has direct access to the pool. This villa is the epitome of indoor/outdoor living. All four bedrooms have super king beds that can be split into twins if needed and are ensuite.

The second, three bedroom villa is slightly elevated and has beautiful views over the garden and pool area. Take in the panoramic views from the first floor out over the BBQ area and further out to the ocean. Hold pool tournaments on the terrace, playing on an original Brunswick billiards table. This villa also boasts a large,

comfortable living area and fully fitted kitchen. Again all three bedrooms have super king beds that can be split into twins if needed and are ensuite.

The outside areas of Casa La Vida have been thoughtfully laid out and decorated. All terraces and paths use local stone and the colours of these stones are echoed in the villa and its furnishings.

Relax during the day around the large infinity pool with plenty of sun-loungers, parasols and relaxing bean bags. Enjoy sundowners in your own beach bar while admiring the local artisan fountain made of natural stone. The shelf of the bar has been carved from reclaimed wood washed up on the beach after a storm.

During July and August a Chef and hostess service are included in the rates. They will prepare breakfast and dinner for you and your family.

Amenities
