### Overview

Thespina is a charming beachfront villa, located within the exclusive Church Point community on Barbados' West Coast. Set amid lush tropical gardens, the villa offers multiple outdoor living areas along its back terrace, including a dining gazebo and stylish lounge spaces which are all perfectly positioned to enjoy the cooling sea breezes and uninterrupted ocean views. A private gate leads directly onto a quiet stretch of white sand, meaning that the sea is literally on your doorstep.

Inside, Thespina embraces an open-plan design, with modern furnishings and elegant coral stone accents creating a relaxed yet sophisticated atmosphere. Large glass doors help the flow from indoors to out, connecting the main living areas to the terrace and offering easy access to the separate cottage. A dedicated villa team including a cook, housekeeper, and night watchman, ensures a seamless and comfortable stay.

The villa will accommodate up to eight guests across four en-suite bedrooms divided between the main house and the detached cottage. The two main house suites each offer king-size beds, while the cottage provides a

queen bedroom and a twin room making it ideal for families, couples, or groups looking for both comfort and privacy.

Just minutes from the vibrant heart of Holetown, guests can enjoy plenty of dining, shopping, and island experiences. With water sports, tennis, and world-class golf courses all close by, Thespina offers the perfect balance of tranquillity, luxury, and convenience.
