Overview

Villa Beautiful is a stunning beachfront villa with direct access onto a pebbly beach. The villa is surrounded by a well kept garden with palm trees and ancient olive trees for those who want shade . The main house offers 3 bedrooms and the guest house has 5 bedrooms - it really is perfect for families or groups of friends, in fact it is known to have had visits from Greta Garbo back in the 1960's.

The Villa's Main House has a beautiful open fireplace, great for those autumn visits and perfect for relaxing and reading a book. There is a dining room with two dining tables including a wine press, and the kitchen features amenities with everything you might need during your stay. The first floor has two spacious double bedrooms, both with en-suites and lovely views - one has sea views and the other garden views. There is also access to two additional bedrooms from a separate outside staircase. They form a quadruple suite which is ideal for families with a twin bedroom, a double bedroom and bathroom that all lead on from each other.

Villa Beautiful also has a Guest house which is set slightly raised from the ground floor - this offers 3 double bedrooms. One of the bedrooms has an en-suite whilst the other two share a bathroom but benefit from sea views. The guest house has a small covered balcony. There is also a suite on the ground floor with an open plan design, it offers it's own living area, albeit small with a well equipped kitchen, bathroom with shower.

On the outside of the property, you will find a stunning terrace area complete with a private swimming pool and jacuzzi with several sun loungers and hammocks. Enjoy the convenience of an outdoor kitchen and dining area where you can prepare delicious meals using fresh produce from the vegetable garden. Enjoy dining al fresco on the outside dining area which features a gazebo...the perfect spot to enjoy a Sicilian sunsets.
