

Golden Pavilion - Overview

Golden Pavilion is situated on four acres of lush tropical gardens with a secure gated entrance. You enter the main house via a beautiful courtyard adorned with Jerusalem gold stone, imported Balinese footlights, statues and a hand carved Buddha. This theme continues throughout this Balinese-inspired home with its traditional Indonesian sculptures, art and furnishings which fill the public spaces. The soft décor boasts a redefined British-Colonial flair.

The villa has four en-suite bedrooms plus a guest powder room. It also includes a one-bedroom guest cottage providing a fifth bedroom, complete with kitchenette and living area.

The main house features a fully equipped kitchen, living area, sitting room and office. There is a pool table and wet bar on the upper level and guests have use of a fitness room located beneath the guest cottage.

Outside, the centre piece and one of the defining features of Golden Pavilion is the heated infinity pool with its stunning 180-degree ocean views. A large carved Balinese dining table with seating for ten overlooks the pool and stunning views beyond. Poolside, relax on one of the loungers or hammocks or enjoy an alfresco breakfast at the open air dining table, also a perfect spot to use the BBQ. Enjoy after dinner drinks under the stars around the fire pit and for a late night dip, there is a hot tub waiting.
